

APPOINTMENT AS AUTHORIZED TEST CENTRE IN THE ASIA PACIFIC REGION BY HYCOM B.V. FOR THE RE-CERTIFICATION AND CALIBRATION OF HYCOM'S HYDRAULIC TEST-STANDS AND RAT (Ram Air Turbine) TESTER FOR AIRCRAFT MAINTENANCE.

Hycom B.V has appointed Singapore Test Services Pte Ltd (STS) as its authorized test centre for the re-certification and calibration of Hycom's test equipment (flowmeters, pressure transducers and gauges, speedsensors etc.) in the Asia Pacific region.

STS's technical staff have been trained in Hycom B.V. to service and calibrate Test-benches for Aerospace MROs with emphasis on quality and fast-turnaround. All calibration work on Test-benches and RAT Tester shall be completed within 7 to 10 working days from date of receipt. Calibration reports are traceable to NIST.

STS's capability for liquid flowmeters is up to 50 US GPM with connection size up to 1 inch and fluid viscosity up to 10,000 cst.

For more details on STS's range of services, please visit our web @ www.test.com.sg
